

2009 Budget

The 2009 Budget process is underway. Your Board has put many hours into contemplating the fiduciary integrity of the Pacific Point Homeowners Association. The goal of the Board, in this process, is to maintain our high standards, consider the Reserve Study relating to replacing / repairing aging components, tracking operating expenses while funding the Reserve Account, preventative maintenance plans related to water intrusion, accounting for increases in contracts and services all the while trying to go another year without an assessment.
