Landscape Update

Members of the Board and Landscape committee have had three, on-site meetings with several landscape contractors in order to get independent assessments of our property. This process is long, but necessary to get a global understanding in regards to budget constraints, draught tolerant fauna, irrigation & beautification. Please bring any questions / suggestions you may have to the November meeting

Comcast Representative

Did You Know, that Pacific Point has it's very own Comcast representative?

For Cable, Home Phone or High-Speed Internet: Please call Craig Oborn @ 650.642.0658 (fax: 650.731.6934) or e-mail: craig_oborn@cable.comcast.com

New Tow Service / Parking Update

Per California Civil Code, Vehicles left in the red zones for long periods of time and/or overnight will be towed.

Pacific Point HOA has contracted Westlake Tow to do random late night/early morning visits to tow any vehicles that appear to have been left in the Red Zones overnight. The Civil Code addresses Red Zone parking only. If someone parks in the red zone to unload groceries or go knock on someone's door to drop something off they will not be towed.

Having this free service will also provide Pacific Point with a level of surveillance / security. Westlake will be coming after 10:00 PM and/or early AM.

Other parking violation that can result in a tow, like parking in front of the garage overnight or abandoning a car in the lot, will require the signature of the parking committee.

See attached "Updated Parking Rules and Reg's" for details
